Agentic AI & GenAI Delivery · Large-Scale Multi-Brand eCommerce Implementations

SUMMARY

AI and Digital Practice professional with 20+ years of experience, building and scaling AI-native engineering practices, and driving pre-sales, contracting, and delivery excellence across Healthcare, Banking, Insurance, Commerce, Entertainment and Manufacturing. Proven track record leading large-scale, multi-brand, multi-country e-commerce implementations — AEM-based platforms for luxury retail and home-goods clients — alongside Agentic AI, GenAI, and RAG initiatives, translating business challenges into scalable, reusable AI accelerators using LLMs, vector databases, and cloud-enabled architectures. Hands-on with Claude Code agentic orchestration, multi-agent review pipelines, and MCP tool integration; skilled in stakeholder management, proposal development, and building high-performing delivery teams.

KEY ACHIEVEMENTS

- Achieved 95% on-time delivery by refining Agile processes for predictable, rapid software delivery.
- Delivered multi-brand, multi-country e-commerce and digital experience implementations for luxury retail and home-goods clients, driving measurable gains in reporting visibility and digital performance.
- Developed multiple AI-powered solutions and platforms that significantly improved operational efficiency.
- Applied Claude Code multi-agent and MCP-based orchestration to automate real engineering workflows end-to-end.

EXPERIENCE

Senior Technical Project Manager · Altudo

09/2021 – 06/2026 · Noida

- Led enterprise AI transformation initiatives across BSW Healthcare and digital experience platforms, designing AI-enabled solutions with Agentic AI and workflow orchestration to strengthen governance and operational optimization. Reducing the overall delivery cycle by 2 months.
- Led the Jaipur Living analytics engagement, expanding the reporting scope to include e-commerce performance dashboards (conversion, AOV, revenue by channel) — driving a 75% improvement in e-commerce reporting turnaround and enabling data-driven decisions across 4 regions in Americas.
- Engineered agentic development workflows using Claude Code and MCP, orchestrating multi-agent review pipelines (security, performance, style) and automating GitHub issue-to-PR delivery — reducing manual review cycles through permission-based guardrails and pre-execution hooks.
- Achieved 95% on-time delivery by leading Agile Scrum ceremonies and managing the full SDLC and risk management for features that reached hundreds of users.
- Drove Sitecore, Analytics, and cloud platform modernization initiatives, and oversaw client relationship management including onboarding, contracting, budgeting, P&L and SLA establishment for onshore clients.
- Implemented AI adoption frameworks focused on governance and operational optimization.

Project Manager · AKQA

05/2017 – 09/2021 · Gurugram

- Delivered multi-site, multi-brand e-commerce implementations on AEM for luxury retail clients Panerai, IWC, Mont Blanc, and Van Cleef & Arpels — spanning B2C storefronts across 40 countries and languages combinations, improving online conversion by 45%, page performance by 80% & release velocity by 50%.
- Managed client relationship onboarding, contracting, allocation, and SLA/delivery-schedule establishment for onshore clients.
- Built SOPs for QA processes for clients across EMEA and UK markets, and led daily reporting and KPI monitoring for compliance adherence.
- Improved user experience by generating and driving machine learning-based enhancement ideas.

Associate Manager · Accenture

08/2005 – 05/2017 · Gurugram & Hyderabad

- Executed System Integration Testing (SIT) for Best Buy over a 2-year engagement, designing and validating test scenarios using stubs and drivers to isolate and verify integration points across enterprise systems.
- Improved SAP system reliability, reducing defect closure rates by 40% through comprehensive Quality Assurance protocols and predictive models.
- Managed enterprise application delivery, quality governance, and business analysis across Banking, Insurance, and Technology programs.
- Built cross-functional coordination for requirement analysis, release validation, automation planning, and delivery tracking, improving delivery quality and reducing operational defects.
- Worked closely with business and technical stakeholders to support enterprise platform enhancements and modernization initiatives.

PROJECTS

AI, Data Science & Analytics

- **Log Analytics AI Workflow** — Developed an AI-powered workflow for a log analytics platform using FastAPI, DuckDB, and OpenAI LLMs.
- **Agentic-AI Content Migration Platform** — Automated content and metadata extraction/transformation, workflow orchestration, and CMS modernization.
- **Agentic AI Healthcare Platform** — Designed a chatbot system with RAG and an Agentic framework assisting patients with various health conditions.
- **Enterprise Reporting Modernization** — Managed initiatives using Power BI and Microsoft Fabric; established data governance and KPI monitoring frameworks.
- **AI-Assisted Website Discovery Platform** — Created a tool for architecture visualization that accelerated enterprise consulting and discovery phases.
- **Watch Recognition System** — Developed using YOLOv3 and embeddings.
- **Predictive Maintenance Platform** — Built for Vestner Elevators using anomaly detection and IoT telemetry data.
- **Sentiment Analysis Dashboard** — Developed and integrated with Twitter.

Other Key Projects

- Completed content hub migrations and Google Analytics integrations for NTT DATA and Infor, improving data management.
- Migrated AFL from Kentico to Sitecore, integrating Coveo for enhanced search functionality.
- Delivered multi-brand, multi-country e-commerce implementations on AEM for Panerai, IWC, Mont Blanc, and Van Cleef & Arpels — providing ongoing support and exploring machine learning opportunities across 40 countries and languages.
- Enhanced web performance for McCormick, optimizing content delivery and user engagement.
- Conducted a comprehensive platform audit for Pulte Group, identifying content management improvements.

Personal Projects

- **Watchsnap.in** — Built a web-based, scalable computer vision platform using YOLO, CLIP embeddings, vector search, and similarity matching.
- **Howistheroad.com** — Crowd-sourced road condition aggregator and trip planner based on LLMs.
- **UseTym** — Android-based app for parental control and monitoring (under test).
- **Logsdontlie.ai** — LLM-based log investigator enabling business users to interact with what's under the hood (under development).
- **Epigraphist** — CNN/YOLO-based Android app to read and translate stone-carved calligraphy on historical monuments (under development).
- **DiscoverWebsite** — Web app supporting Business Analysts during the discovery phase by identifying page templates, page counts, API details, and website mind maps (ready for launch).

SKILLS

- **AI / Machine Learning** — Agentic AI, RAG, Deep Learning, LangChain, LangGraph, YOLO, LoRa, Random Forest
- **LLMs / Agents / Automation** — MCP (Model Context Protocol), Claude Code, Sub-Agent Architectures, GitHub Actions AI Automation, Hooks-Based Governance, Context Engineering, Issue-to-PR Pipelines
- **eCommerce & Digital Platforms** — Multi-brand/Multi-country AEM eCommerce Implementations (B2C), Coveo Search, Sitecore, Google Analytics, Content Hub & CMS Modernization
- **Python / JS / SQL** — Python, FastAPI, PySpark, Pandas, NumPy, SQL
- **Cloud / DevOps / MLOps** — Databricks, Neo4j, Streamlit, OpenAI APIs
- **Product Collaboration / Stakeholder Communication** — Agile Delivery, SDLC, JIRA, Confluence, Pre-Sales Support, Contracting & SLAs, Stakeholder Management, Client Relationship Management
- **Platforms & Analytics** — Power BI, Predictive Analytics

CERTIFICATIONS

- Databricks — ML Associate
- Adobe Experience Manager — Business Practitioner
- Certified Scrum Master
- ITIL v3 Foundation

TRAINING / COURSES

- Deep Learning Specialization — Coursera
- Data Science Specialization — Coursera
- Claude Code Mastery Bootcamp — Agentic Engineering, MCP, Sub-Agents & Hooks

EDUCATION

M. Tech. (Data Analytics) · BITS Pilani · 06/2016 – 06/2018

Diploma in Banking & Finance · JAIIB · 01/2014 – 12/2014

PGCBM-19 · XLRI Jamshedpur · 01/2011 – 02/2012

B. Tech. Electronics & Communication · AKTU, Lucknow · 10/2001 – 06/2005

INTERESTS

- Painting and Traveling
- Philately and Amateur Radio
